

# Safety Data Sheet (SDS)

#### 1. Product & Company Identification

Product Name

Newalpha Foam 3310A (Type Approval Number: Foam No. 27-5)

Manufacturer : Yamato Protec Corporation

Address : 5-17-2 Shirokanedai, Minato-ku, Tokyo

Phone Number : 0570-080100 (Navi Dial)

Department : Technical Support

Suggested Use & Limitations on Use : Fire Extinguishing Agent

#### 2. Hazards Identification

## **GHS** Classification

Items not listed below are "Unclassifiable" or "Not eligible for classification"

Physical Hazards

Flammable Liquids :Not classified

Health Hazards

Acute toxicity, oral : Not classified
Acute toxicity, dermal : Not classified
Acute toxicity, inhalation: vapours : Not classified
Acute toxicity, inhalation: dusts and mists : Not classified
Serious Eye Damage/Eye Irritation : Category 2
Specific Target Organ Toxicity, Single exposure : Category 1
Specific Target Organ Toxicity, Repeated exposure : Category 1
: Category 2

Environmental hazards

Hazardous to the aquatic environment, acute hazard : Category 2 Hazardous to the aquatic environment, long-term hazard : Category 3

Representation or Symbol:

Alert Level : Danger

[Newalpha Foam 3310A] Yamato Protec Corporation Reference number: SDS No.060-1

Creation date: April 4, 2015 Revision date: October 15, 2016

#### Health hazard statements

Causes serious eye irritation

May cause cancer

May damage fertility or the unborn child

Cause damage to organs (respiratory system, heart, kidney, central nerve system).

Causes damage to organs through prolonged or repeated exposure.

(respiratory system, heart, kidney, central nerve system)

May causes damage to organs through prolonged or repeated exposure.

(liver, inhalation of dust: autonomic nervous system)

Harmful to aquatic life

Harmful to aquatic life with long lasting effects

#### Precautionary statement

## Safety Precautions

Avoid release to the environment.

Do not breathe dust/fume/gas/mist/vapors/spray.

Wear protective gloves/protective clothing/eye protection/face protection.

Wear respiratory protection.

Wash hands thoroughly after handling.

Do not eat, drink or smoke when using this product.

Wash hands thoroughly after handling.

## First Aid Measures

# IF SWALLOWED

Call a POISON CENTER/doctor if you feel unwell.

#### IF IN EYES

Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/ attention.

## IF ON SKIN

Wash with plenty of water and soap.

If experiencing respiratory symptoms: Get medical advice/attention.

#### If exposed

Get medical advice/attention.

#### Storage

Avoid high humidity, keep the product within the operating temperature range, and if possible, under lock indoors.

#### Disposal

The contents and the container should be disposed of by waste disposal contractors licensed by the Governor.

[Newalpha Foam 3310A] Yamato Protec Corporation Reference number: SDS No.060-1

Creation date: April 4, 2015 Revision date: October 15, 2016

# 3. Composition/Information on Ingredients

Single Component or Mixture : Mixture

Chemical Name or Common Name : Fire extinguishing foam

(Aqueous film-forming fire extinguishing foam)

Chemical Name	CAS	Chemical Substances Control Law number	Concentration or
or Common Name	Number	Industrial Safety and Health Law number	Concentration Range
Water	7732-18-5	Not covered Available	50 to 60%
Ethylene glycol	107-21-1	(2)-230 Available	10 to 20%
Hydrocarbon surfactant	Available	Available Available	5 to 15%
Diethylene glycol hexyl ether	112-59-4	(2)-2424 Available	5 to 10%
Fluorochemical surfactant	Available	Before public notice Available	1 to 5%
Cationic polymer	Available	Available Available	1 to 5%
Adipic acid	124-04-9	(2)-858 Available	1 to 5%
Diethylene glycol monobutyl ether	112-34-5	(2)-422 2-(8)-99	1 to 5%
Ethanol	Available	Available Available	1 to 5%
Sodium chloride	7647-14-5	(1)-236 Available	1 to 5%

#### 4. First Aid Measures

### IN INHALED

Remove person to fresh air and keep comfortable for breathing. Gargle with water.

When vomiting occurs naturally, tilt the body so that vomit will not choke the respiratory treat.

#### IF ON SKIN

Take off immediately all contaminated clothing.

Wash with plenty of water and soap.

# IF IN EYES

Rinse immediately with clean water for at least 5 minutes.

There is a possibility of hurting the eyeball, so do not rub. Get medical advice/ attention.

## **SWALLOWED**

Drink water or milk to dilute agent in the stomach (Do not induce vomiting).

Wash your mouth with water (only if the person did not loss his consciousness).

Call a POISON CENTER/doctor if you feel unwell.

Revision date: October 15, 2016

## 5. Fire Fighting Measures

Fire Extinguishing Agent : Foam, water mist, dry sand, powder.

Special Fire Fighting Procedures : A surrounding fire: spray and cool

Ignition: Discontinue fire and extinguish from windward

using appropriate fire extinguishing agent.

Protection of Fire Fighters : Wear rrespiratory protection

#### 6. Leakage Measures

Personal Precautions, Protective Equipment and Emergency Measures

The workers should wear suitable protective equipment (See "8. Exposure Prevention and Protection

Measures") and avoid eye or skin contact and inhalation.

Stay in the wind.

Ventilate sealed places.

Prohibit unauthorized persons from entering the area.

**Environmental Precautions** 

Be careful not to affect the environment by discharging into rivers and others.

Dispose of the collection as industrial waste.

Prevention of Secondary hazards

Prohibit unauthorized persons from entering the area around the leaked place.

In the case of inflow into rivers or public waterways, report to the person in charge of pollution in the local government immediately.

# 7. Handling and Storage Instructions

#### Handling

Careful handling and opening of containers. Do not eat, drink when using this product.

Avoid contact with skin Avoid contact with eye

If in eye rinse wash with plenty of water. Get medical advice.

Take off immediately all contaminated clothing.

If on skin wash with plenty of water and soap.

## **Technical Measures**

Use only in well ventilated areas.

Handle near a shower, a hand washing, or an eye washing fidelity.

Display the positions of theses facilities.

Wearing contact lenses during work is not preferable.

Work at the location where the local exhaust system is installed.

Wear eye / face protection.

Wear suitable protective clothing and eye / face protection.

After handling, wash hands and eyes thoroughly.

Safe Handling Instructions

No knowledge

Contact avoidance

No data available

Storage

Remove from heat Seal the container

## 8. Exposure Prevention and Protection Measures

Allowable Concentration

Ethylene glycol STEL C 100mg/m³, Upper limit (ACGIH)
Diethylene glycol monobutyl ether TLV-TWA 10 ppm (67.5 mg/m³) (IFV)

**Equipment Measures** 

Handle near a shower, a hand washing, or an eye washing fidelity.

Display the positions of theses facilities.

Protective Equipment

Respiratory Protective Equipment : Wear suitable respiratory protective equipment.

Hand Protection : Wear suitable protective gloves. Eye Protection : Wear suitable protective glasses.

Skin and Body Protection : Wear suitable protective clothing and masks.

Revision date: October 15, 2016

# 9. Physical and Chemical Properties

Appearance

Physical State : Liquid
Color : Light brown
Odor : Unique odor
pH : 7.0~7.8 (20 °C)
Melting Point, Freezing Point : -15 °C or less

Boiling Point, Initial Boiling Point and Boiling Range : 100 °C Flash Point : None

Explosion Limits : No data available
Vapor Pressure : No data available
Vapor Density (air = 1) : No data available
Specific Gravity (relative density) : 1.08 (20 °C)

Solubility : Easily soluble in water

Viscosity : 31 cSt (20 °C : Cannon-Fenske)

## 10. Stability and Reactivity

Stability : Stable under normal handling conditions

Reactivity : No data available
Hazardous Reactivity : No data available
Conditions to Avoid : No data available
Incompatible Hazardous Materials : No data available

Hazardous Decomposition Products : HF (hydrogen fluoride), F<sub>2</sub> (fluorine gas) and fluorocarbons

can be generated.

Revision date: October 15, 2016

# 11. Toxicological Information

Acute Toxicity (oral) : Calculated value (ATEmix)>2000 Acute Toxicity (dermal) : Calculated value (ATEmix)>2000

Acute Toxicity (inhalation : gases) : Not applicable

Acute Toxicity (inhalation : vapours) : Calculated value (ATEmix)>2000 Acute Toxicity (inhalation : dust/mist) : Calculated value (ATEmix)>2000

Skin Corrosion/Irritation : No data available

Serious Eye Damage/Eye Irritation : 10×(skin Category 1+ eye Category 1) + eye

Category  $2,2A/2B \ge 10\%$ 

Respiratory Sensitization: No data availableSkin Sensitization: No data availableGerm-Cell Mutagenicity: No data available

Carcinogenicity : 0.1% or more Category 1A component

included

Reproductive Toxicity : 0.3% or more Category 1A component

included

Specific Target Organ Toxicity (Single exposure) : 10 % or more Category 1 component included Specific Target Organ Toxicity (Repeated exposure) : 10 % or more Category 1 component included

: 1 % or more and less than 10% Category 1 component included or 10 % or more Category

2 component included

Aspiration Hazard : No data available

### 12. Environmental Impact Information

## **Ecotoxicity**

Hazardous to the aquatic environment – Acute hazard : Category 2
Hazardous to the aquatic environment – Long term hazard : Category 3

Persistence and Decomposability : No data available Bioaccumulation : No data available Migration in soil : No data available

Others

Other Environmental Toxicity:

BOD: 53000 mg/L (3% water solution)

Measurement method JIS K 0102 21

COD: 304000 mg/L (3% water solution)

Measurement method JIS K 0102 17

Revision date: October 15, 2016

## 13. Disposal Considerations

#### Residual Waste

Disposal should be in accordance with applicable laws and local regulations. The substance should be disposed of by waste disposal contractors licensed by the Governor or by local public entities if appropriate. Waste disposal contractor, if used, should be well informed of potential hazards and toxicity from the waste.

## Contaminated Containers and Packages

Containers should be properly disposed of in accordance with applicable laws and local regulations. If containers are disposed of, their contents should be completely removed.

## 14. Transport Considerations

United Nations Number : Not applicable
Product Name : Not applicable
United Nations Classification : Not applicable
Container Class : Not applicable
Marine Pollution Materials : Not applicable

National Regulations:

Land Regulatory Information Follow the provisions of the Fire Service Act
Aeronautical Regulatory Information Follow the provisions of the Civil Aeronautics Act
Maritime Regulatory Information Follow the provisions of the Ship Safety Act

Revision date: October 15, 2016

## 15. Applicable Laws

Industrial Safety and Health Act

Dangerous or Harmful Substances Subject to be Indicated their Names, etc.

(Appended Table 9, Order Article 18 (1) & (2), Article 57-1 of the Act)

Ethylene glycol (Cabinet Order No. 75)

Diethylene glycol monobutyl ether (Cabinet Order No. 224-3)

Adipic acid (Cabinet Order No. 10)

Act on Confirmation, etc. of Release Amounts of Specific Chemical Substances in the Environment and Promotion of Improvements to the Management Thereof (PRTR Law)

Not applicable

Poisonous and Deleterious Substances Control Act

Not applicable

#### 16. Other Information

This product should be used with the understanding that the use of any chemicals involves unknown potential hazards and toxicity. Hazards and toxicity depend on the environment of use and the storage conditions and period. We suggest that those with knowledge and experience be involved in all stages from use through storage and disposal.

The instructions provided in this document should apply when the product is handled normally. If the product is handled in a special way, proper safety precautions should be taken. Also, it should be used under the responsibility of the user.
