Environmental hazards	
Hazardous to the aquqtic enviro	
	: Category 3
Hazardous to the aquatic enviro	onment - Long-term hazard
	: Not classified.
Hazardous to the ozone layer	: Classification not possible.
GHS label elements	
Pictograms	
	A sta
	$\mathbf{v}$ $\mathbf{v}$
Signal words	: Danger
Hazard statements	: H302: Harmful if swallowed.
	H311: Toxic in contact with skin
	H331: Toxic if inhaled.
	H315: Causes skin irritation.
	H319: Causes serious eye irritation.
	H361: Suspected of damaging fertility or the unborn child.
	H370: Causes damage to organs. (central nerve system, blood, kidney, liver)
	H373: May cause damage to organs through prolonged or repeated exposure. (blood)
	H402: Harmful to aquatic life.
Precautionary statements	
[Prevention]	: P201, P202: Obtain special instructions before use. Do not handle until all safety
	precautions have been read and understood.
	P280: Wear protective gloves/ protective clothing/ eye protection/ face protection.
	P264: Wash hands thoroughly after handling.
	P270: Do not eat, drink or smoke when using this product.
	P261: Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray.
	P271: Use only outdoors or in a well-ventilated area.
	P260: Do not breathe dust/ fume/ gas/ mist/ vapours/ spray.
	P273: Avoid release to the environment.
[Response]	: P264: Wash hands after handling.
	P310, P314, P333, P305: Immediately call a POISON CENTRE or doctor/
	physician and get medical advice/attention if any of the following occurred:
	(Skin irritation, rash, in eyes, feeling unwell, or any other abnormality found in body)
	P301+P312: IF SWALLOWED: Call a POISON CENTER/ doctor/ if you feel unwell. P330: Rinse mouth.
	P302+P352: IF ON SKIN: Wash with plenty of water.
	P312: Call a POISON CENTER/ doctor/ if you feel unwell.
	P362+P364: Take off contaminated clothing and wash it before reuse.
	P304+ P340: IF INHALED: Remove person to fresh air and keep comfortable
	for breathing.
	P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes.
	Remove contact lenses, if present and easy to do. Continue rinsing.
	P308+P313: IF exposed or concerned: Get medical advice/ attention.

Product name: Profoam 310 Revision date[3]: 2014.05.12 DAI-ICHI KOGYO SEIYAKU CO., LTD. [Storage] : P403+P233: Store in a well-ventilated place. Keep container tightly closed. P235: Keep cool. P405: Store locked up. [Disposal] : P501: Dispose of contents/ container in accordance with local/ regional/ national/ international regulation. 3. COMPOSITION/INFORMATION ON INGREDIENTS Substance or mixture : Mixture Ingredients and composition : (1) Polyoxyethylene alkyl ether sulfate amine salt approx. 10 % (2) Higher alcohol approx. 2 % (including 1.1 % 1-Dodecanol) (3) Ethylene glycol monobutyl ether (butyl cellosolve) approx. 30 % (4) 2-aminoethanol < 1 % (5) Water and others 50 - 60 % Chemical formula or structural formula : (1)  $R(OC_2H_4)_nOSO_3H \cdot HN(C_2H_4OH)_2$ (2) ROH (3)  $C_4H_9O(CH_2)_2OH$ (4)  $C_2H_7NO$ Official gazette notification reference number (ENCS) : (1) 7-155/1-391(main component) (2) 2 - 217(3) 2-407(4) 2-301 Official gazette notification reference number (ISHL) : Listed. CAS Registry Number : (1) Trade secret (2) 112-72-1/112-53-8 (3) 111-76-2 (4) 141-43-5 4. FIRST-AID MEASURES Inhalation : Remove the victim to a place with fresh air and keep him/her at rest. Consult a doctor as necessary. Skin contact : Wash off with soap and plenty of water. If symptoms develop, consult a doctor as necessary. Eye contact : Immediately irrigate eyes with clean running water for at least 15 minutes and get medical treatment. Ingestion : Rinse mouth with water and give one or two glass/es of water or milk. Get medical treatment immediately. If the victim is unconscious, do not give anything by mouth. Protection of first-aiders : First-aiders must wear appropriate personal protections such as rubber gloves and goggles. 5. FIRE-FIGHTING MEASURES : Fire-extinguishing powder, fire-extinguishing foam for water-soluble liquid, Extinguishing media carbondioxide, dry sand, and water spray. Prohibited extinguishing media : No information.

3/8

## Product name: Profoam 310

Toutet name. Troitain 510	Kevision date[5]. 2014.05.1
Specific hazards	DAI-ICHI KOGYO SEIYAKU CO., LTD. : During fire-fighting operations, avoid inhalation of combustion gas by using proper
	respiratory protective equipment since it contains hazardous gasses such as
	carbon monoxide, sulphur oxide, and nitrogen oxide.
Specific methods of firefighting	: Remove all possible ignition sources and extinguish the fire with proper
	extinguishing agent. Extinguish the fire from the windward side as much as possible.
	Evacuate people other than authorized personnel to a safe area. Sprinkle over the
	surrounding equipment to cool down. Prevent products/other chemicals from being
	discharged into a river and sewers due to the extinguishing water and such.
Protection of firefighters	: Wear proper protections (e.g. gloves, goggles and masks). During fire-fighting
-	operations, avoid inhalation of combustion gas by using proper respiratory
	protective equipment since it contains hazardous gasses such as carbon monoxide,
	sulphur oxide, and nitrogen oxide.
ACCIDENTAL RELEASE MEAS	URES

6.

Personal precautions, protective equipment and emergency measures

r ersonar precautions, protective et	aupment and emergency measures
	: Make sure to wear appropriate protections such as gloves, goggles, and masks. In case of massive spill, evacuate people to a safe area. Be assured to ventilate as
	necessary.
Environmental precautions	: Do not directly discharge the material into a river and sewers without wastewater treatment.
Methods for cleaning up	<ul> <li>In case of minor spill, remove the material with the use of adsorbents (e.g. soil, dry sand, and waste cloth) and then wipe off the rest with waste cloth or a rag completely.</li> <li>Wash off with plenty of water. In case of massive spill, prevent its runoff by blocking with mounds, remove it to a safe area, and collect it into drums.</li> </ul>
Prevention of secondary hazards	: Remove all ignition sources and prepare extinguishing agent. Be careful because the floor surface can be slippery and may be a cause of a slip and fall accident if you leave the floor wet with the material. Do not walk on the contaminated surface unnecessarily. Use safe equipment which does not generate sparks.
7. HANDLING AND STORAGE	
Handling	
Technical measures	: Provide an emergency eyewash and a quick drench shower in the immediate work area.
Precautions	: Nothing in particular.
Precautions for safe handling	: Provide adequate ventilation at work areas. Wear appropriate protections such as glasses and gloves. After handling the material, wash your hands and face thoroughly and gargle.
Storage	
Adequate storage condition	: Keep containers tightly sealed and store them in a well-ventilated indoor place.
Safe packaging materials	: Use original container.
8. EXPOSURE CONTROLS/PERSO	NAL PROTECTION
Engineering measures	: Install local exhaust ventilation device if vapor, fume, or mist generates. Provide an emergency eyewash and a quick drench shower in the immediate work area.

Administration level : 25 ppm (2 - Butoxyethanol) Control parameters

## DAI-ICHI KOGYO SEIYAKU CO., LTD.

Japan Society for Occupation	al Health
	: (The 2012 Edition) 3 ppm, 7.5 mg/m <sup>3</sup> (2-aminoethanol)
ACGIH	: (The 2013 Edition) TWA 20 ppm (butyl cellosolve)
	TWA 3 ppm, STEL 6 ppm (2-aminoethanol)
Personal protective equipment	
Respiratory protection	: Gas mask for organic solvents if necessary.
Hand protection	: Impervious (chemical-/oil-/solvent-proof) protective gloves.
Eye protection	: Safety glasses with side shield. (goggle type/full-coverage type if necessary)
Skin and body protection	: Antistatic finish long-sleeve clothing.
Specific hygiene measures	: Wash your hands and face thoroughly and gargle after handling the material.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state		
Form	:	Liquid
Color	:	Light yellow
Odor	:	Glycol ether odor
Odor threshold	:	No data.
pH	:	Approx. 7.8 at 20°C.
Specific temperatures/temperature r	an	ges at which physical state changes
Boiling point	:	No data.
Melting point	:	-7.5°C or below at fluid point.
Decomposition temperature	:	No data.
Flash point	:	No data.
Autoignition point	:	No data.
Explosion range		
Upper explosive limits	:	12.7 % at 135°C (butyl cellosolve)
Lower explosive limits	:	1.1 % at 93°C (butyl cellosolve)
Vapor pressure	:	$0.080$ kPa at $20^{\circ}$ C (butyl cellosolve)
Vapor density	:	No data.
Specific gravity	:	Approx. 1.034 at 20°C.
Solubility		
Solubility in water	:	Soluble.
Solubility in solvents	:	No data.
<i>n</i> -octanol/water partition coefficien	t	
	:	No data.
Spontaneous ignition temperature		
	:	No data.
Other data	:	No data.
STABILITY AND REACTIVITY		
Stability	:	Stable under normal handling conditions.
Reactivity	:	No self-reactivity. No reactivity with water.
Conditions to avoid	:	No information.
Incompatible products	:	No information.
	:	
Others	:	No information.

11.	TOXICOLOGICAL INFORMATIO	N			
	Acute toxicity - Oral	: LD <sub>50</sub> 1385 mg/kg (calculated value) (including approx 11 % component as unknown toxicity)			
	Acute toxicity - Dermal	: LD <sub>50</sub> 758 mg/kg (calculated value) (including approx 27 % component as unknown toxicity)			
	Acute toxicity - Inhalation (Gases)	: Not applicable.			
	Acute toxicity - Inhalation (Vapor)	: LC <sub>50</sub> 5.4 mg/L (calculated value) (including approx 29 % component as unknown toxicity)			
	Acute toxicity - Inhalation (Dust an	l mist)			
	Skin corrosion/irritation	<ul> <li>Not classified. (Not classified , but excluding approx. 58 % component of unknown toxicity)</li> <li>Category 2</li> </ul>			
	Skii corrosion/irritation	(Category 1 for 2-aminoethanol, Category 2 for butyl cellosolve, 1-Dodecanol and a part of active component) <sup>1)2)3)</sup>			
	Eye damage/irritation	: Category 2A (Category 1 for 2-aminoethanol, Category 2A for butyl cellosolve and a part of active component, Category 2B for 1-Dodecanol and a part of active component) <sup>1)2)3)</sup>			
	Sensitization - Respiratory or skin	: Respiratory sensitization: No data. Skin sensitization: No data. (Not classified for butyl cellosolve, 1-Dodecanol and a part of active component) <sup>1)2)</sup>			
	Germ cell mutagenicity	No data. (Not classified for 2-aminoethanol, butyl cellosolve and a part of active component) <sup>1)2)</sup>			
	Carcinogenicity	: No data. (Not classified for butyl cellosolve and a part of active component) <sup>1)2)</sup>			
	IARC	: 2-Butoxyethanol is listed 3 on IARC.			
	Japan Society for Occupational H	ealth			
		: Not listed.			
	Toxic to reproduction	Category 2 for butylcellosolve. <sup>2)</sup>			
	Specific target organ systemic toxicity (Single exposure)				
		<ul> <li>Butyl cellosolve: Category 1 for central nerve system, blood, kidney and liver.</li> <li>Category 3 for airway irritability.<sup>2)</sup> (Category 1 for 2-aminoethanol,, but less than 1 %)<sup>2)</sup></li> </ul>			
	Specific target organ systemic toxicity (Repeated exposure)				
		<ul> <li>Butyl cellosolve: Category 2 for blood.<sup>2)</sup> (Category 1 for 2-aminoethanol,, but less than 1 %)<sup>2)</sup></li> </ul>			
	Aspiration hazard	: No data.			
12.	ECOLOGICAL INFORMATION				
	Ecotoxicity	: Acute category 3 (Category 1 for 1-Dodecanol, Category 2 for 2-aminoethanol, Category 3 for a part of active component, Not classified for butyl cellosolve) (including approx 15 % component as unknown toxicity) <sup>1) 2)</sup>			
	Persistence/degradability	<ul> <li>Long term category; Not classified. (Not classified , but excluding approx. 15 % component of unknown toxicity (2-aminoethanol, butyl cellosolve, 1-Dodecanol and a part of active component))<sup>1/2)</sup></li> </ul>			
	Bioaccumulation	: No data.			
	Mobility in soil	: No data.			
	ر. د				
	Other data	: No data.			

#### 13. DISPOSAL CONSIDERATIONS

The product should be incinerated in permitted facilities in accordance with applicable local/regional/national/international regulations. For low-concentration wastewater of the product, apply the appropriate disposal method based on its density. Dispose of container in accordance with local/regional/national/international regulations.

### 14. TRANSPORT INFORMATION

Any transportation practice regardless of by road, by sea, or by air must be in compliance with laws and regulations in your country or region.

UN classification	: Not regulated.	
UN number	: Not regulated.	
Proper shipping name	: Not regulated.	
Packing group	: Not regulated.	
Marine pollutant	: Not regulated.	
Other applicable information	: No information is available	e.

#### 15. REGULATORY INFORMATION

Regulatory information with regard to this product in your country or region should be examined by your own responsibility.

#### International substance registration information
